

Using Webmail to access E-mail

The MCSD E-mail server includes Webmail. Webmail allows access to your E-mail account by using any web browser such as Internet Explorer or Netscape. Webmail is not intended to replace a full featured program like Outlook.

Webmail is intended for:

- Accessing E-mail from outside the school district's network (from home or training classes)
- Accessing E-mail when away from your regular workstation (visiting another location within the school district)

To use Webmail, start your Web browser and go to the following URL:
<http://webmail.mcsdga.net>
